This was the warning Mr. McKenzie, Canadian War Correspondent, who lectured in London last Tuesday gave. It was really a message from the Canadian soldiers who fought so gloriously and valiantly in Belgium and France, and who were a wonderful cry from the very centre of the heart against the Germans for the extremely, diabolical, heathen atrocities committed in Belgium. It was a warning from France, but not Canadian prisoners of War. France do not lie and Mr. McKenzie spoke from experience. By the practice he meant the great lesson that we were to learn was that we must not want to see a single German immigrant settle in the West, or cross the borders of the Dominion, until we are satisfied that they are not guilty of the atrocities committed by the French Hun in Europe will never be forgotten by those who experienced and witnessed these atrocities. Canadian soldiers who lie in the trenches of Belgium and France will never forget and many a Canadian soldier will never forget the brutal ruthlessness of the German soldiers. Keep off the peaceful shores of the third warning.

To-night it is learnt that very important developments are pending. There are indications that Britain, through Premier Lloyd George, and the United States, through President Wilson have given assurances to Premier Clemenceau of common action on the part of these two English-speaking powers to protect France against any danger of future German aggression. The character of the undertaking is not yet known, but it is believed that both Britain and the United States have agreed to enter into an arrangement with France whereby any overt action by Germany will be considered a *casus belli* calling for the employment of the land and naval forces of both powers to resist Teutonic invasion of French territory.

"Upon the summit of the Mount of Olives is a small square village with a large Moslem building, in the courtyard of which is a small chapel, called the Chapel of the Assension and containing a rock said to be the footprint of Christ. From this spot, of early tradition, the state our Lord accepted to leave. The impression of the footprint is plain enough, but that it was that of Jesus is an improbable tradition.

"There was pointed out to us also the building that marks a spot where Jesus is said to have taught His disciples the Lord's Prayer. In the walls are inserted panels on which is inscribed this prayer in some forty-four different languages."

Soon Canada's population will be increased by about 400,000 above what last year's census showed it to be when the expeditionary forces, which left our shores to help check the Hun's crusade of oppression have returned. These must be absorbed back into civil life. Where are they to find employment, is the great question with which the minds of the returned men are concerned.

Many are already home and several have already made application to the local Bureau for work, and many have been placed. However, the majority appear to be seeking occupations in the towns and cities. The young men who leave the farms to enlist and now fail to return there but accept make-shift positions in the cities and towns, will live to regret it. There is no better business prospect in this country to-day than the one in connection with the farm. The farms need the young men and if they go there the young men will follow. With the telephone, rural mail delivery, the automobile, and the great improvement in farm and dairy machinery, life on the farm is not the isolated drudgery it used to be.

It has been proven again that anything worth having is worth going after. When the Board of Trade, backed by the press, went after the first postal delivery—they got it. At least Government postal officials have informed our Federal member that the system would be inaugurated right away. The Board of Trade is to be congratulated.

CANADA'S SCALE OF PENSIONS

thousands have been conscripted into the Canadian and Canadian soldiers have their lives sacrificed for the sake of a relatively few of their countrymen. Thousands of other Canadian casualties are entitled to pensions. Thus the national pension responsibility is a large one; and when any comment upon its details, we ought to maintain allowance for the difficulty the government has to do justice to both the soldier and the taxpayer. And when the Canadian government paying on the whole the highest pensions in the world to our soldiers, no Canadian should publicly utter one-sided comments which must give the impression that this country is playing a mean part in its treatment of its fighting men.

Canada pays a little less than \$45 a month to the widow of a soldier. The United States, the richest country in the world, ten times as rich as Canada, but which lost no more men in the war than Canada did, pays \$26 a month. Austral which is more generous than most countries, pays \$22 a month. Only New Zealand, of all countries, pays as high as the Canadian rate. Except New Zealand again, Canada pays a larger pension to a totally disabled soldier than any other country, namely \$52 a month if unmarried, of \$62 if married. The United States pays only \$17 a month to a totally disabled married soldier, and \$31 to an unmarried one. The British scale, the highest in Europe, is less than that of the United States.

Do not let us in Canada foul our own nest. Possibly we do not do enough for our soldiers. If we do more in a number of ways than any other country does for its men, and a great deal more in some ways. When any of us see occasion criticize the Government on this subject, let us try to bear in mind all the Government does well as anything in which it may seem not to do enough.

A review of the butter situation for the past few months reveals a situation which few consumers will understand after the last year's experience. A recent observation on the part of the United States and Canadian Governments, Commissions in Canada and the United States are some that equal, but both countries, on the admission of Toronto shippers and wholesalers, are being forced to "pay through the nose," while the allies in Europe are enjoying the best creamery butter at prices which have not been quoted here for years back.

When the United States declared war the Government commandeered 60 per cent. of the American butter supply for the use of its military contingents and the supply of its army and navy at various points. Upon the signing of the armistice this precaution was abandoned and the wholesale price of butter fell nearly fifty per cent. in view of the surplus in hand. For some reason unknown this surplus was shipped to Europe and American butter soon reached its former wholesale, and local dealers now state that not a week's supply is on hand to-day in the United States.

Some time ago The Warbler stated that Lincolshire Scouts in conjunction with Scouts the other way would build a monster fire on the night of the day when the peace treaty will be signed. A London paper gives some details of the arrangements which are being made in London for the occasion. The Scouts of the City, of whom 2,000 non-fire will send up their beacon light on Peace Night. The Committee are arranging to purchase from the Admiralty the deck chairs which the Navy has on hand in quantities now too large to use. It will be used so that fuel shall not be wasted. Each fire burner for about ten minutes and make a great illumination. Many non-fire are preparing to light up the night with their own torches. The lighted up at ten o'clock from Lamb's End the remote bluffs of the Hebrides, and it is expected that the chain will extend right around the world.

Belgium Is Dissatisfied With Terms Of Peace

Petition to the King—Delegates Recalled from Paris to Consult with Cabinet—Memorial Asks for Repudiation of Terms *of a*

Brussels, May 4.—At the cabinet council yesterday afternoon, which lasted two and a half hours, it was decided to recall to this city the three Belgian delegates whose presence is needed at a further council to be held in the Royal Palace at Laeken, which will be attended by all members of the government and state ministers. At this conference it will be decided whether or not the conditions offered Belgium by the peace conference will be accepted.

The Catholic newspaper, *Nation Belge*, says it has information that Premier De Lathauze told his colleagues at the cabinet session the Belgium is to receive immediately 2,500,000,000 francs in gold and that advances made to Belgium thus far of about 4,500,000,000 francs.

The paper also states that all materials requisitioned or destroyed by the Germans are to be returned immediately. Germany is to give Belgium annually for the next number of years 5,000,000 tons of coal, representing 450,000,000 francs. It adds that payment by Germany of 7,500,000,000 marks in cir-

A petition has been presented to King Albert by the national political committee, that he refuse to sign the peace treaty. This committee represents 100,000 members and 200 communities.

WOULD GAIN PRESTIGE
The petition presented today; Albert declares that the nation would gain prestige in the eyes of the world if her sovereign declined to attach his name to a document which would not guarantee her rights.

"In the next few days," says the petition, "vast bodies have joined us. We echo public opinion which is indignant at the title which is offered us for the safety of Belgium and the dynasty. We beg your majesty to refuse to sign the treaty rather than accept arms given us by leaving the conference Belgium would show the immorality of a peace signed without her."

"By sacrificing herself she would regain prestige in the eyes of the world, and the nation would demand that justice be done her. We believe it would be better to risk having nothing rather than abdicate our right to the reparation and guarantees promised by mutual assistance agreements in the midst of the nation's distress we commit to your hands our desire and our confidence."

Paul Hymans, the Belgian foreign minister, has returned here, and will attend an important cabinet council.

A great patriotic demonstration was held at Antwerp today. The burgomaster and other prominent men made speeches, recalling the Belgian sacrifices for the allies and demanding fulfillment of their obligations.

Public Opinion in Belgium has been upset by the news from Paris concerning what is described as the unsatisfactory decisions reached by the peace conference respecting Belgium. Newspapers of all shades of opinion express their disappointment and it is said the Belgian

Peace Terms to be Offered to Germany To-day

POWERS TO CONSIDER STERN MEASURES IF THE GERMANS FAIL TO SIGN

PROVERBIAL HORSE CASE HEARD TUESDAY—ATTRACTED FARMERS OF WEST OPS

Paris, May 7.—The complete cessation of hostilities between Germany and the Allies, considered by the Council of Four Ministers of the Peace Conference as a measure to be adopted in the event that Germany refuses to sign the peace treaty.

The plan for the measure was submitted to the Ministers by the Russian Bolshevik Council.

THEM ALL READY.

Paris, May 7.—It is officially announced last night that the plenipotentiaries of the peace treaty will be communicated to the allied delegates this afternoon, and to the German plenipotentiaries tomorrow afternoon.

The announcement agrees with media reports of negotiations of the Peace Conference.

The Markets At a Glance

Toronto, May 15. The markets' activity and its possible effect on the price of wheat is the subject of the weekly market report. The wheat market was quiet, with prices for the week ending at 53 1/2 cents. The great quantity of Ontario produce, which is being shipped to the United States, is selling at even higher prices. New Florida produce, from \$1.10 to \$1.20 according to grade. Dried fruit continues to advance in price. Canned goods, too, are scarce and indications point to a further advance in price. "What is This Nerve Food You See Advertised in all the Papers, Some Kind of Patent Medicine?"

"What is this Nerve Food You See Advertised in all the Papers, Some Kind of Patent Medicine?" "Well, do you know anything about it?" "I certainly do, and have a box right here in my grip. Why, say, in my estimation, it is the greatest thing ever invented in the medicine line." "You seem to be rather enthusiastic. You are not selling Nerve Food, are you?" "No, I am not selling it, but I am recommending it. When I find a good thing it is to tell others about it." "What did it do for you?" "It was on my back with the flu for two weeks, and when I got up it was so weak that I did not get out of the house for ten days. I started out on my trip on the road, but did not have any energy, well good."

"What seemed to be the matter?" "The doctor said my nerves were in bad condition. I could not sleep nights, and after talking to a customer I seemed to

be all in. There was no little nerve force in my system that I went all to pieces with a little exertion." "I did not get until I had used Dr. Chase's Nerve Food for about two weeks. By that time my appetite was good and I began to feel like myself again." "For a month I scarcely made a dose of the Nerve Food, and am now feeling fine. I eat and sleep well, and take the same old pleasure in my work that I always did when in good health." "You must be all right, then." "Yes, and I certainly appreciate that Dr. Chase's Nerve Food has done for me. For I thought I would have to quit the road entirely. You can call it a patent medicine if you like, but I can't say it is."

Dr. Chase's Nerve Food, 50 cents a box. For \$2.75, 1 dozen, or Edmonson, Bates & Co., Ltd., Toronto. On every box of the Nerve Food, you will find the signature of Dr. W. W. Chase, M.D., the famous

Recipe Book.

STOLE MONEY FROM UNDER A PILLOW

Colborne, May 20.—About ten o'clock Monday morning burglars of an entrance to the residence of Robert Copley, a well known merchant of Colborne and stole \$1,412 and his pants and vest, which were under his pillow. One thousand two hundred and fifty dollars of this amount was in the inside pockets of his vest and the balance in cash and cheque was in his pockets. At 8 o'clock, the flag of which were buttoned down.

Mrs. Copley, who occupied another bed in the same room, was awakened by a noise, and calling her husband, attempted to turn on the electric light. Finding in this, a lamp was broken, and on investigation it was found that the electric wire had been cut and that Mr. Copley's clothing had been stolen. Nothing else was taken, although a diamond ring and other jewelry were lying on a stand in the room. Mr. Copley was in the habit of making cheques for himself after banking hours, which accounts for the large amount in his pockets.

No trace of the thief has been found.

WHAT CHANGE IN WOMAN'S LIFE

ment, O—"I was passing through
critical period
of life, being forty-
one, and I had all the symp-
toms incident to this
change—best flau-
ty, no sleeping, and
was in a general run
down condition, as
it was hard for me
to do my work.
I took Dr. Finkbeiner's

mended to me as the
best remedy for my
trouble, which I
found better and
longer in easy way than taking it

the annoying symptoms have disappeared. — Mrs. M. GUINEX, 225 N. 2nd St., Fremont, Ohio.

Such annoying symptoms as headaches, nervousness, lackluster, dizziness, irritability and "the blues," may speedily overcome and the system return to normal conditions by this famous root and herb remedy Lydia E. Pinkham's Vegetable Compound.

If any complications present themselves write the Pinkham Medicine Co., Lowell, Mass., for suggestions how to overcome them. The result of forty years' experience is at your service and we'll be glad to keep you satisfied. Write us in strict confidence.
